OBJECTIVE

Having **3 years of working experience** in software projects as a **Developer and Data Analyst**. I am looking for a company where I can use my experience and skills to ensure that projects deliver on time, quality while studying in a competitive environment. My ideal role will include being part of a dynamic team in a reputable company, giving me the opportunity to improve my skills and professional experience. I am good at teamwork and will be able to work under pressure. Besides, I am willing to learn and learn quickly to adapt with job requirements.

SKILL SUMMARY

Technical skills:
- Coding languages: Java, Java Script, Android, Oracle/MySQL, HTML5&CSS3, Unity, React Native, NodeJS, and ABAP SAP, …
- GitHub, Microsoft Office, Jira, Source tree, ...
- Workflow: Mobile-First, Responsive Design, Cross Browser Testing & Debugging Cross Functional Teams, Agile Development & Scrum, ...
- **Machine learning and Data science**:
  - Python and SQL
  - Machine learning and Deep learning models
  - Natural Language Processing and Computer Vision
  - TensorFlow, Keras and Scikit-learn
  - Google Cloud Platform and Data Analysis

Soft skills:
- Data driven
- Good problem-solving skill
- Teamwork
- Flexibility

EXPERIENCES

Digital Marketing Data Analyst at Novaland Group (Present)

- Manage and store data on google big query.

- Weekly report of campaigns by the Digital Marketing team.

- Report the effectiveness of vendor / agency / publisher advertising campaigns.

- Support for reporting advertising of project events.

- Supporting events and media booking plan activities for the team.

Machine Learning Researcher (Part-time) at CBD Robotics (2020)

- Attend a Machine Learning/Data Science Bootcamp.

- Learn Machine Learning algorithms, models and database/project design.

- Project: Skin Cancer.

- Technologies and Tools: Python, Scikit-learn, TensorFlow, Keras, Colab, Jupyter Notebook, Visual Studio Code and Flask.

Data Analyst at Home Credit Vietnam (2019 – 2020)

- Analysis and implementation of underwriting workflows.

- Statistical modelling, business impact simulations and data mining.

- Optimization of Under Writing process in terms of approval rate, risk, eligibility, limits and time to yes.

- Regression testing, new feature testing connected to IT releases.

- Technologies and Tools: Internal Cloud System, Oracle System, Google Data Studio and Big Query, Grafana and InfluxDB; Python, Java and SQL languages.

ERP Developer at FPT Information System Corporation (2018 – 2019)

- Participate in programming for SSV-Support, LTP, FTD projects.

- Support error correction of projects as required.

- Practice on of SAP Logistic – End to end process.

- Technologies and Tools: SAP System and ABAP Language.

Business Intelligence and Research at TMA Innovation Center (2017 – 2018)

- Research for trends and market of new technologies fields and related.

- Develop and maintain database by acquiring data from many sources.

- Quickly identify valuable information among the huge available data.

- Technologies and Tools: Microsoft Office Tools and Internal System.

RESEARCHS AND PROJECTS

Research topics:

- Analyzing the failure of Pan American World Airways (Pan Am) from 1973-1991.
- Network security in International Relations.
- Neptune ad Tet holiday satisfaction rating in 2017.
- HR Technology.
- Health diagnostic by analyzing face images using mobile devices.

Data Analysis and Machine Learning projects:

- YouTube Scraping and Tiki Scraping
- UFC Fighters analysis
- Sentiment analysis of IMDB movie reviews
- IBM HR analytics attrition
- Covid 2019 analysis
- 2019 Kaggle ML-DS Survey analysis
- Melbourne housing price analysis
- Airlines arrival analysis

- Boston marathon analysis

Deep Learning projects:

- Cat dog classification
- Skin cancer prediction
- OCR Vietnamese handwriting
- LSTM – Image Captioning
- Fruits360
- Vietnamese correction and classification
- Vietnamese sentiment analysis

EDUCATION

FPT Greenwich University Vietnam   **2019**
BSc.Computing: Software Engineering
FPT Polytechnic   **2016**
Advanced Diploma Computing: Mobile/ Computer Programming
Ho Chi Minh City University of Foreign Languages and Information Technology   **2013**
Bachelor of Arts: International Relations (major in Politics-Diplomacy)

CERTIFICATES

- MOS WORD, EXCEL, POWERPOINT 2013
- Big-O Blue: Introduction to Algorithms
- Business Administration of The Centre of Economics Development
- TOEIC 625
- Nordic Coder: Machine Learning
- Coder School: Machine Learning | Data Science
